Members of a street car conductors' union in Danville have been beseeching the utility commission to permit an increase in street car fares. They know that if the higher fares are authorized that increased pay they are asking will be granted. But union men who ride every day to the railroad shops are protesting against the higher street car fares. Thus the utility commission faces union displeasure, no matter what its finding.

Armories throughout the state are to be turned into educational centers. There men who join the national guard will be offered educational opportunities like those of ex-service men and soldiers of the regular army have available. The movement purposes to increase interest in the national guard and to build it up. It's a needed institution.

President Wilson has been eulogized almost every hour the San Francisco convention has been in session. The president is credited with control of the convention thru federal appointees, but evidently that control is not sufficient to lead the delegates to act against their judgment and nominate McAdoo.

Many a Democrat, loyal to the president, is wise enough to know that the nomination of another member of the family would not be good politics. The picture of a president who ran on a one term platform, sought re-election and then to perpetuate the family control, does not have a real democratic touch.

There are a lot of bald statesmen in the lengthy Democratic platform but one of the nerviest applies to the railroads. This paragraph goes on to explain that the railroads were taken over as a wartime measure, were operated with great efficiency and that the equipment was turned back to private hands in splendid condition. It must be the "splendid condition" of the locomotives and freight equipment that has been such a large factor in paralyzing railroad traffic during recent months. The statement is quite in line with Mr. McAdoo's estimate of the railroad deficit the year he surrendered control. The estimate proved to be just 25 per cent of the actual figures.

IS QUALIFIED TO SERVE

It will not be many weeks until the primary election will be here and men named for county offices. The candidates are not as numerous as usual but it is possible that some tentative candidates are waiting for the smoke of the two national conventions to clear away before entering the lists.

Among other county officers to be named will be a member of the board of commissioners. In fact, because of the death of Capt. J. M. Swales, two members are to be chosen in November and they will be nominated in September. One possible candidate on the Republican ticket is James E. Osborne, now resident in Jacksonville but a citizen of Murrayville precinct during much of his time.

Mr. Osborne has made no statement about his candidacy but his name has been frequently suggested. He is a high class citizen, a man who has succeeded as a farmer and in other lines of business. If he should become a candidate and be chosen a member of the board the people of the county would have a broad-minded, far-seeing official of unquestioned integrity.

FOREFATHERS DIDN'T WANT SERVICE

A news service bulletin says that what some of our forefathers thought of such "contraptions" solved by the business man who

as the service agencies is set forth in an interesting letter dated 1826 held by F. W. Force of Gilman, and reprinted in part in the Rockford Republic. It is signed by the school board of Lancaster, Ohio, the document refusing use of the school house for a meeting to discuss the question as to whether railroads were practical or not. An excerpt from the letter reads:

"You are welcome to use the school house to debate all proper questions in, but such things as railroads and telephones are impossibilities and rank infidelity. There is nothing in the word of God about them. If God designed that his intelligent creatures should travel at the frightful speed of 15 miles an hour by steam, He would have clearly foretold thru His Holy Prophets. It is a device to lead immortal souls down to hell."

MAN OF BUSINESS VS. THEORIST

There is one marked difference between Senator Harding and President Wilson. Harding began life at hard work on the farm, undertook the printing of a small newspaper, performed all kinds of work from turning the press by hand, up to writing the editorials, learned how to make both ends meet financially, so that the pay-roll could be liquidated every Saturday night, built up his paper to a daily of high standing and influence, served in the state Senate, in the Lieutenant Governorship, and finally in the United States Senate. Harding has been a man among men. He has learned in the hard school of experience. He has learned to give and take—to consult others and weigh their opinions with sound judgment. He is a practical man, not a theorist.

Mr. Wilson, on the other hand, has had no business experience. He has been a recluse, so far as concerned with the world of affairs is concerned. His occupation as a schoolmaster developed the autocratic spirit. He knew nothing and cared less about the difficult problems that must be solved by the business man who

has a payroll to meet. He has been a theorist—not a practical man of affairs. He knows nothing of the essential art of dealing with other men and taking advantage of their knowledge, their experience and their practical judgment. The Wilson administration has been limited to the capacity of one man—hence its many failures, its wastefulness, its lack of ability to grasp the multitude of difficult problems that have arisen.

Harding is a typical American—Wilson is an extremist of the visionary type.

RUMANIA IS LAND OF MANY NATIONALITIES

At Least Ten Distinct Nationalities Represented in Various Provinces—Queen Marie Tells of Visit to Poet.

BUCHAREST.—Rumania with the addition of the provinces of Bessarabia, Bukovina, Transylvania, the Banat and Dobruja, is now a country of at least 10 distinct nationalities. In its parliament are seen peasants with white kiltie and embroidered vests and leggings reminding of the red Indian, sitting together with red fezzed Turks.

"It is especially in the Dobruja that these different nationalities jostle together," said Queen Marie of Rumania. "Together with Rumanians, live peacefully side by side, Bulgarians, Turks, Tartars, Russians, and in places even Germans."

"I have been to a village in the Dobruja which was part Rumanian, part Russian, part German and part Turkish. I went from one side to another, visiting many a cottage, entering each church, ending my round in the tiny mosque hung with faded carpets, and there in a crowd of lowly Turks I listened to their curious service, of which I understood naught. A woman who is not veiled has no right to enter the holy precinct; but a royal name opens many a door, and many a severe rule is broken in the joy of receiving so unusual a guest."

On a burning summer's day I came to a tiny town almost entirely inhabited by Turks. I was distributing money among the poor and forlorn and had been moving from place to place. Now it was the turn of the Mussulman population, therefore I visited the most wretched quarters, my hands filled with many a coin.

"Such was my joy at my coming that the real object of my visit was almost forgotten. I found myself surrounded by a swarm of excited women in strange attire, prattling a language I could not understand. They called me Sultana, and each one wanted to touch me; they fingered my clothes, patted me on the back, one old hag even chucked me under the chin. They drew me with them from hut to hut, from court to court. I found myself separated from my companions, wandering in a world I had never known. In a labyrinth of tiny mud-built huts, of ridiculously small gardens, of hidden little courts, they dragged me with them, making me enter their hovels, put my hand on their children and sit down."

"The poorer Mussulman women are not really veiled. They wear wide cotton trousers and over these a sort of mantle which they hold together under the nose. The shape of these mantles gives them that indescribable line so agreeable to the eye, and which alone belongs to the East. Also the colors they choose are always harmonious; they are toned down to their surroundings by sun and dust. They wear strange dull blues and mauves—even their blacks are not really black, but have taken rusty tints that mingle pleasingly with the mud-colored environment in which they dwell."

"When attired for longer excursions, their garb is generally black, with a snow-white cloth on their heads, wrapped in such manner that it conceals the entire face except the eyes. Indescribably picturesque and mysterious are these dusky figures, generally carrying a heavy staff in their hands; there is something Biblical about them, something that takes one back to far away times."

James A. Herne's Immortal Stage Drama of New England Folk

Romance—Action—Contrast—Thrills
For 30 years unnumbered thousands have laughed and cried, have been thrilled and exalted by this mightiest of American dramas! A father's iron will clashing with his daughters' love for an honest man. Characters like cameos. Scenes of power and resistless momentum, transpiring in the atmosphere of strait-laced New England. This picture shows why James A. Herne's tremendous stage play stands as the greatest American drama of two generations. A production that is as fine as money and care can make it. The famous light-house scene, when the "Liddy Ann" goes on the rocks in the grip of the sou'easter, is the most thrilling portrayal of a shipwreck that has thus far been achieved on the screen.

Charles A. Rose.

Arthur LeBeau, of Winooski, Vermont, who declares he is now in the 'pink of condition' and enjoying life for the first time in many years as the result of taking Tanlac.

"Thanks to Tanlac I am now enjoying life for the first time in years," recently declared Arthur LeBeau, foreman of the Porter Screen Co., Winooski, Vermont. "For five years I was a sick man. My principal trouble was indigestion. I had no appetite and generally went off to work without any breakfast because I knew if I ate anything it would only upset me."

"My condition was so bad in fact, I could neither sleep, eat nor work with any satisfaction and was so nervous that the least thing would upset me. Nothing seemed to agree with me and I would have severe cramping pains in my stomach and at times my heart would palpitate badly. I also suffered from shortness of breath, and the least little exertion would make my heart lump like an engine."

"At last, almost decided I would give up my job as I got so weak and miserable I felt I could stand it no longer."

"One night as I sat reading a paper I saw a statement about Tanlac which convinced me it was just the medicine I needed. It helped me from the very first dose and at the time I had finished my third bottle, I hardly knew myself."

"I never have the slightest symptom of indigestion now and feel like a brand new man in every way. My appetite is splendid, my nerves are steadied and I sleep soundly at night. The work I used to dread now seems easy for me and I am now in the very 'pink of condition.' Of course, I am only too glad to recommend this medicine."

MANY FINISH AT GREAT LAKES TRADE SCHOOL

Nearly 100 Men Graduate Every
Three Weeks at World's Big-
gest Trade School—Aviation
Mechanics Only Are Trained.

Chicago, Ill., July 3.—Nearly
100 men are being graduated
every three weeks at Great Lakes
Naval Training Station from what
naval officers describe as the big-
gest trade school in the world.

The school is devoted exclu-
sively to the training of aviation
mechanics and at the present time
3,225 students are taking the
courses, which range in length
from sixteen to thirty six weeks.
More than 1,000 men have
graduated since the school was es-
tablished, slightly more than a
year ago and another thousand
will complete their work by No-
vember. Lieut. Commander E.
E. Wilson, commandant at the
school, says all of the 6,000 men
provided for in the naval air force
will be graduates of the school
within another year.

The cost of turning out the first
1,000 graduates was \$7,000, mak-
ing the average cost of producing
trained aerial mechanics \$7
apiece. The low cost was due to
the fact that the students produce
nothing in their studies to be
wasted. Instead of making the
frequently useless examples they
work on parts actually needed for
repairs and construction of new
airplanes. A number of planes,
ranging from small land flyers to
huge seaplanes only a step smaller
than the famous "N-C" type, have
been completed.

The school is valued at be-
tween \$20,000,000 and \$30,000,000
but all the tools and equip-
ment are salvaged material which
would otherwise have been sold at
a great loss after the war. Part
of the equipment is several mil-
lion dollars worth of partly fin-
ished airplane motors and parts,
which were purchased from the
manufacturers after the armis-
tice as junk, at a flat cost of 27
cents a pound. The students are
completing the parts and build-
ing machines from them.

Lieut. Commander Wilson start-
ed the school from the bottom a
year ago. As the first step the
navy officer wrote all the text
books to be used.

No flying is done, but the best
men from each class are eligible
later to attend a school for enlist-
ed pilots. Each graduate of the
mechanics school receives a cer-
tificate, while gold, silver and
bronze medals are awarded to the
honor men. The 3,225 students
now here include 440 marines.

WOMAN ASSAULTS
POLICEMAN
Chicago, July 3.—Miss Ida
Berquist was told to leave
the city yesterday for assaulting
a policeman. She had declined
to be discharged as maid from a
home. A policeman was sum-
moned and found the 260 pound
girl in her room reading.
"You're under arrest," he
said. She jerked the rug from under
him and stepped on him. Two
more policemen took her to court.

FORMER SURGEON GENERAL U. S. ARMY DIES IN LONDON

(Continued from Page One.)

Soon after the United States
entered the world war General
Gorgas announced the organi-
zation of the extensive system
for soldiers crippled in the war
which included the establish-
ment of orthopedic hospitals
behind the firing lines in France
reconstruction hospitals in the
great centers of America and the
retraining of crippled men and
preparation for resuming their
vocations or learning new ones.

General Gorgas reached the age
limit while still on duty in
France in 1918. When the war
was over he was retired from ac-
tive service in the army. Subse-
quently in 1919 he was head of
the yellow fever commission or-
ganized by the Rockefeller

made an extensive tour of Central
and South America to direct
the work of eradicating yellow
fever from some of its breeding
centers, notably in Peru and
Ecuador.

ferred upon him in June, 1920,
the decoration of Knight Com-
mander of the Order of Saint

of a Confederate general. He
was graduated from the Uni-
versity of the South in 1875. He
was appointed a surgeon in the
United States army in 1880.
While in London in June 1920 on
his way to South Africa to again
improve sanitary conditions
there, he was taken ill and it
was announced that he had pre-
viously suffered a stroke of apoplexy.

IBANEX MAKES STRONG APPEAL FOR INDIANS

In Keynote Speech at Organi-
zation of National Agrarian Party
—Has Lived Life of Peasant
Since Childhood.

Mexico City, June 14.—Twelve
million Indians, who have slaved
for five cents a day for five years
at a time to support 3,000,000 id-
lers, cry out for help to the new
formed National Agrarian party,
according to Crisoforo Ibanez,
who made the keynote speech at
the party's organization meeting
here yesterday, according to El
Heraldo de Mexico.

"Since childhood I have lived
the life of the peasants," said
Ibanez. "I know how much the
toilers of the field have suffered
how much they need and how
much they merit. They have
spent five years at a time earn-
ing the miserable daily wage of
ten centavos (five cents) tilling
the earth with the sweat of their
brow for other people's profit. In
the beginning of our history as a
people the Indians were reduced
to worse than nothing by the
Spanish agents, who, to enslave
them, inoculated in them fanat-
icism for the Virgin of Guada-
lupe, so as to be able to do any-
thing they pleased with them lat-
er, by invoking this name; and
the Indian was reduced to slav-
ery."

"For this reason the Indian
hates the white man. The In-
dians, who call the animal that
roams the fields 'cuahcoyote,'
simply call the white man 'coy-
ote,' that is thief. This because
for a long time there have been
in Mexico 12,000,000 Indians who
have supported 3,000,000 idlers
and not a few Europeans who al-
so live off of them."

Bitter attacks on President Car-
ranza and some of his followers
featured the address of the new-
ly-elected president Antonio Diaz
Soto y Gama, who said that Emil-
iano Zapata was his "only chief."
Soto y Gama pledged the party's
support to the presidential
candidate of General Alvaro Ob-
regon because of his "radicalism,"
and because he "is feared by the
reactionaries."

General Alvaro Obregon, Salva-
dor Alvarado, Plutarco Elias Cal-
les, Antonio I. Villarreal and Gil-
dardo Magana were elected hon-
orary presidents of the new party.

SEEK TO MAKE STATE MILITIA ATTRACTIVE

Chicago, Ill., July 2.—Purposes
of the commission appointed by
Governor Frank O. Lowden to re-
organize the Illinois state militia
making it more attractive to
young men, has been outlined by
Chairman Frank O. Wetmore.
The commission aims, he says, to
make regiments clubs for youths
of the city where social and edu-
cational advantages are to be had.
The study of English, the
American constitution, the history
and traditions of citizenship and
its responsibilities and privileges
will be among the subjects taken
up.

Chicago's five armories will be
supplied with athletic apparatus.
An inter-regimental league is one
of the features of the athletic
committee. Many committees
have been appointed to carry out
various plans.
Frank O. Lowden is honorary
president of the commission. Mr.
Wetmore is a prominent business
man of Chicago.

NAVAL RESERVISTS TO MAKE EXTENDED CRUISE

Chicago, July 3.—Naval reserv-
ists in the ninth, tenth and ele-
venth districts may spend the
months of August and September
cruising around the United States
from Portsmouth, N. H., to Mare
Island, Cal., at the expense of the
government.
Rear Admiral F. B. Bassett,
commandant at Great Lakes, has
issued a call for reservists to
man ten Eagle boats on the
cruise.

The itinerary arranged in-
cludes stops at Atlantic and Pa-
cific ports and at points of inter-
est in the Panama Canal zone.
The men needed include repre-
sentatives of nearly every occu-
pation. The navy pays transpor-
tation, furnishes subsistence, and
allows the men active duty pay at
the new rates.

PRICE OF ANIMALS SOARS IN GERMANY

Berlin, June 15.—Like every-
thing else in Germany, the price of
wild animals has soared sky high.
An elephant costs 80,000 marks
as against the former price of 7-
500. A lion skin now brings 4-
000 marks, which is much more
than a living lion used to cost.
Owing to the great expense it is
out of the question to replenish
Germany's zoos except by breed-
ing and the keepers of the various
zoos throughout Germany are co-
operating in mating their charges.

STATE POLICE FORCE BEGUN IN GERMANY

Berlin.—What is regarded as
the beginning of a state police
in Germany is the establishment
just announced of a state detec-
tive police board. Criminal ele-
ments have been increasing so
rapidly thruout the country that
the local authorities have been
unable to cope with them. Vari-
ous government institutions
could not be organized to organize
police departments of their own but
this has led to confusion.

BIG ELI FACTORY DOES NOT MIND HEAT WAVE

Company Shipped Out Four Wheels Last Week—Two Went By Express to Waterbury, Conn.—Twenty-five Shipped This Spring and Summer.

That the employees of the big Eli factory do not mind the present heat wave is shown by the shipment of four Big Eli wheels to various destinations last week. Two of these wheels went forward by express to Waterbury, Conn. These were both No. 5, twelve seated wheels. One was consigned to W. J. Bloch of the Bloch Amusement company and the other to John Stebler of the Gerard and Stebler shows. It required the entire space in a large

express car and the express charges will be \$750. These wheels were shipped July 1. On June 28 a No. 12 machine was shipped by freight to E. D. Miller, a prominent amusement man of Chicago. This wheel will be operated with other riding devices at various celebrations in that city.

A No. 5 twelve seat size wheel was also shipped to Edgar C. Couch by freight to Atlantic, Ia. Mr. Couch came to the factory to see his wheel loaded and trace the shipment thru to its destination. This wheel will be operated with a merry-go-round at fairs thru Iowa during the remainder of the season.

It will be of interest to many citizens of Jacksonville to know that twenty-five of these amusement riding devices have been shipped from the factory this spring and summer.

The company has a number of wheels yet to be shipped and this bids fair to be the banner season in the history of the company. The officers of the company and the employees have been a most desirable addition to the city and the Big Eli factory promises to develop one of the city's best industries.

CONDITIONS IN RURAL RUSSIA ARE IMPROVED

Facts That Money Is Valueless Brings Improvement as Peasants Now Consume What Was Formerly Sold—System of Land Tenure Varies.

Moscow, June 7.—The condition of the rural population is excellent in the Volga district, owing to the fact that much which was formerly sold is now consumed, as money is valueless, the peasants being unable to purchase agricultural implements, seeds, clothing and other manufactured articles.

This was gleaned by The Associated Press correspondent who visited the towns of Nijnnyogod, Simbirsk, Samara, and Saratoff, while on a tour with the English Labor delegation to Volga recently.

There is an abundance of fresh eggs, butter and milk in villages and in one town, which was visited, there was 7,000 head of cattle for a population of 5,000.

The system of land tenure varies but in the majority of the villages the peasants are the actual owners of the land, which has been distributed since the revolution, in equal shares for each adult inhabitant.

The government's requisitions are meeting with some opposition but the peasants are permitted to retain 32 poods (1154 pounds) of flour per capita as a yearly ration and must deliver up 100 liters (120 quarts) of milk per cow and 10 eggs per hen per year.

Many of the villages are being organized on a commune basis, notably in the self-governing German commune, with the capital at Marxstadt. The population of the German community is 600,000, all of whom speak pure German after an absence of 150 years from their native country.

The local government of Marxstadt is well organized with schools, hospitals, social service, admirable administrative offices, and a number of small industries such as leather factories, flour mills and turning shops. The Germans have formed and sent to the front several regiments of infantry and cavalry, commanded by their own officers. Politically the villages have been only slightly touched by the revolution, party lines are practically non-existent, and the government seldom interferes in its local matters. The rich peasants are discontented with the present situation owing to the redistribution of land which has deprived them of part of their holdings and which is making the poorer peasants better off than they ever were before.

Evidence of the government's efforts to modernize the rural population appear on every hand by the establishment of schools for adult illiterates, libraries, reading rooms and instruction in the new methods of agriculture.

The food situation in the towns is fairly good though the lack of salt, meat and fats is evident, but the system of food distribution is effective with the speculative prices one-third to one-tenth less than those in Moscow.

The metal works at Nijnnyogorod are operating with a force of 17,500, who are turning out war material while the flour mill, other industries are also being carried on.

The towns of Simbirsk and Samara are still suffering from the effects of Czechoslovakian occupation under which the boys under military age have been conscripted for service in Siberia.

According to Sverdloff, the assistant commissar of transportation the resumption of the river traffic to Volga will enormously increase the supply of industrial fuel. It is estimated that 120,000,000 poods (38,077 pounds) of Baku oil will be delivered during the present season, but already 400,000 poods of oil has been received in Nijnnyogorod.

Ladies', Men's and Boy's Bathing Suits, wool or cotton, \$1.00 to \$10.00. Caps to match.

ATTENDED GREAT ROTARY GATHERING

Henry Frisch Back from Interna-
tional Convention at Atlantic
City — Dr. Harker and Mayor
Crabtree Also Attended.

Henry Frisch and son Jacob
have returned to Jacksonville after
attending the sessions of the
International Rotary club at At-
lantic City and visiting a number
of cities in the east. E. E. Crab-
tree and son Farrell who accom-
panied them are now at Omena,
Mich. Dr. Joseph R. Harker
while in the east to attend session
of the educational board, also
spent a day at the Rotary club
assemblage.

Mr. Frisch, Mr. Crabtree and
their sons joined a party of three
hundred Rotarians in Chicago
and traveled east by a special
train. En route they stopped at
the field of Gettysburg, then spent
a day in Washington. For three
days they attended sessions of
the convention and entertain-
ment arranged in connection with
it. There were delegates present
from Shanghai, Honolulu, Eng-
land, Cuba, Porto Rico and rep-
resentatives of many other for-
eign countries.

At the opening session the pre-
sentation of the delegates from
foreign countries was made a
matter of special interest. The
delegates in each instance ap-
peared in the dress of their re-
spective land and marched down
the aisle of the great convention hall
to the platform preceded by U. S.
marines. There were features to
make this presentation very im-
pressive in a patriotic way. For
patriotism is one of the chief
tenets of the Rotary faith.

In the addresses and the vari-
ous sessions it was made clear
that the work with boys is one
of the chief interests of Rotary
and reports from hundreds of clubs
were presented showing the wide
range of activities in these under-
taking for the youth of the land.
There were more than 7500
delegates in attendance and the
reports showing the numerous ap-
plications for new charters made
it certain that at the next inter-
national gathering the club of de-
legates will be even more im-
posing.

Mr. Frisch said yesterday that
he had returned to Jacksonville
appreciating even more than be-
fore that the Rotary organization
has undertaken a work program
of practical worth and that the
spirit of Rotary today represents
one of the great world movements
looking toward better citizenship
and stronger Americanism.

After the convention the Jack-
sonville tourists visited New
York, Boston and a number of
places of historic interest in the
New England states. They spent
also a day at Buffalo and when
they reached Detroit were of the
number shown thru the great
Ford factory. From Detroit Mr.
Crabtree and son went to Omena
and Mr. Frisch and son came to
Jacksonville.

SOUTH SANDY FIRM ADDS MORE SPACE

People's Furniture Store Busi-
ness Shows Very Gratifying
Growth.

The floor space of the People's
Furniture store on South Main
street is to be doubled, in ac-
cordance with arrangements
made by Stanley Wright, the
proprietor. The building now oc-
cupied is to be connected with
that immediately to the south,
owned by John Van Os. The room
was recently vacated by J. W.
Skinner and connecting doors
will now make it a part of the
People's Furniture establish-
ment.

It was just about a year ago
that Mr. Wright opened this
furniture establishment and the
business has grown in such a
satisfactory way that the addi-
tional floor space is acutely
needed.

While resident in California
Mr. Wright found that the slogan
of "Trade used furniture for
new" meant large business for
some of the establishments in
the coast state. So he adopted
the slogan here and a
great deal of used as well as
new furniture is therefore offered
at the People's Furniture estab-
lishment.

The additional facilities will
mean still further increase of
business. Most courteous treat-
ment is accorded to every visitor
to this furniture establishment
and an inspection of goods and
prices will give proof of the
bargains offered. Prompt deliv-
ery is made and trading
stamps are offered to patrons.

their efforts to make the celebra-
tion worthy of the day and of the
city.

From early afternoon until late

tain that there will be a spirited
competition. Another feature of
the afternoon will be the competi-
tive drill by the American Legion

offered for this event. While a
ball game is in progress at South

A letter from W. H. Farley, Waverly, Ill., to
Reeve & Curtis, Jacksonville, Ill.

June 21st, 1920.

"Reeve & Cutriss,
214-216 West Morgan St.,
Jacksonville, Ill

"Gentlemen:—

"I purchased a Wallis Tractor from you in Nov. 1919. I plowed (90)
Acres for corn, in 1919.

"In 1920 I sure gave her a hard test, I put in (70) acres of oats, and
(300) acres of corn. I also harrowed (100) acres of corn in (10) hours.

"I run her from 4 o'clock in the morning, until 10 o'clock at night. I never
stopped the engine. I think she is the best Tractor that goes to the field.

"Here is my reason—she takes less kerosene oil, and less cylinder oil,—
she runs cool,—and you don't have to be carrying water to the field, to cool her
off.

"Another good reason—I could never have gotten my corn in this year, if
I had not had my Wallis Tractor. She has never refused to start, just touch her
with the crank and off she goes, racing to the field. She never gets tired, and
never wants to stop at 6 o'clock as horses do.—And another good reason—my
expense has been nothing but care and oil.

"I will cut wheat and oats, then I will pull a 24x40 Keck-Gonnerman
separator with her."

ILLINOIS COLLEGE FACULTY MEMBERS

Trustees Announce Appointment of Clayton C. Quast as Head of Vocal Department—New Instructor for College Faculty.

Two new appointments have been made by the Trustees of Illinois College. Clayton C. Quast has been appointed as head of the vocal department in the Conservatory of Music. Mr. Quast was in Jacksonville recently and sang at the morning services at State Street church about two weeks ago when the Knights of Pythias were holding their services at that church. It is evident that Mr. Quast has a baritone voice of the finest quality and that he will be a great addition to the musical talent of the city. In addition to his natural ability Mr. Quast has had the best of training, having studied with J. Brabazon of London, Francis Fisher Powers of New York and Theodore Harrison of the Lyceum Arts Conservatory of Chicago. Mr. Quast has held church positions in Philadelphia, Chicago, Detroit and Atlanta. During the past year he has been head of the voice department of Shorter

College, Georgia. Mr. Quast will hold the position vacated by Mr. Keep.

Francis I. Moats has been appointed to fill the temporary vacancy, created by the leave of absence granted to Professor George I. Poage, in the history and political science department. Mr. Moats has recently held the position of Professor of History and Political Science in the Montana Wesleyan University at Helena, Montana. He is a graduate of Simpson College, Iowa, with a master's degree in history and political science from Northwestern University. While a graduate student at Northwestern he held a fellowship in political science. In addition to his experience at Montana Wesleyan, Professor Moats has had a couple of years experience in the army service serving as a First Lieutenant in Siberia.

GREENE COUNTY NEWS ITEMS OF INTEREST

Bills of White Hall Doctors Against County Are Settled—Miss Nell Painter Loses Pocketbook—Other Happenings in White Hall.

White Hall, July 3.—William C. Kelly, chairman of the pauper committee of the board of supervisors, made his final visit to White Hall this week in settlement of the bills of White Hall doctors against the county as a result of the smallpox epidemic last winter, and which were deemed as extortionate. Mr. Kelly was accompanied by the other members of the committee, and the matter was brought to a close in a manner that will meet with the approval of the public.

A letter from Miss Nell Painter, received by her mother, Mrs. James Painter, shows that the lady had quite an expensive experience on her recent trip to Denver, following her vacation at home. While conversing with Miss Bessie Smith, who had accompanied her from Alton to await connection at union station, Miss Painter laid her pocketbook on a seat in the station, and it was gone when she was in the act of picking it up. It contained her ticket and about one hundred dollars in money, leaving her in such straits that St. Louis friends came to her aid and arranged for her to proceed to Denver.

Carl Dugger and bride are here for a visit with his parents, Mr. and Mrs. Ed Dugger. They were married in St. Louis Wednesday. They will reside at Detroit, Mich., where he has been located for some time and in which city he found his bride, formerly Miss Esther Byron.

Noble Gilmore, after being bedfast three weeks with tuberculosis, died Thursday night at the family home, southeast of White Hall. He had been in failing health for a long time. He was the eldest son of G. W. Gilmore, and was about 26 years of age.

Funeral services over the remains of Miss Mary Stewart, aged a little over four years, were held at the home of the parents, Mr. and Mrs. W. C. Stewart, on East Bridgeport street at three o'clock Saturday. The child died as the result of an operation in a hospital at Jacksonville.

Mrs. Annie Dickie Olesen who was asked by Mr. Bryan to assist him in the great wet and dry debate at San Francisco Friday and who repeatedly brought the great convention to its feet and electrified her hearers with her oratory is the Democratic National Committeewoman from Minnesota.

Although still a young woman she has not only been prominent in politics but has been a leader as well in child welfare, women's club and Y. M. C. A. work. She has the honor of being the first woman to speak at the Jackson Day dinners in Washington. Recently her name has been mentioned with the Democratic nomination for the vice presidency, altho it is understood that she will not allow her name to be used.

One of the great American magazines says that she is one of the two leading women of our country. She is counted by many as being the best woman platform speaker in the United States.

Mrs. Olesen is booked for a lecture on "The New Social Consciousness" at the coming Jacksonville Chautauqua.

"It Speaks for Itself"

ANNOUNCEMENT!

We take pleasure in announcing to our friends and the public of Jacksonville and vicinity that we have secured distribution of a car that is "The Last Word In Motordom"

The Gardner Light Four

The GARDNER designers have worked on the idea that straight-line simplicity would give the best appearance, without being radical or extreme. The unexpected angle at the dash—the low, slanting windshield—the broad, wide-opening doors—the half oval mouldings—the tall hood with the slim louvres—the flat, almost severe top edge, most refreshing to the eye—the outside door handles—all spell beauty and style.

When you carefully examine the Gardner Light Four in comparison with other cars in a similar class, we ask you to particularly note the de-

tails. After all, the biggest things in life are the little things, and in the designing and perfecting of this car the Gardner organization has paid particular attention to the little details. A little more comfort here—something handy there—a touch of style in another place—a little better finish in another—all through the construction of the car you will find the little details carefully guarded and perfected. The result is—a harmonious and well-balanced automobile that is pleasing to the eye, comfortable to the occupant, and a sense of power and security of the driver.

Jacksonville to St. Louis
Made 118 Miles in
2 Hours 38 Minutes

Average Speed 44.8 Miles per Hour.
24.84 Miles per Gallon of Gas

Read the Following from the Jacksonville, (Ill.,) Journal, July 2

"D. N. James yesterday made a record run between St. Louis and Jacksonville, driving an Essex standard stock car. The 118 mile trip was made in two hours and 38 minutes, thus smashing records. Mr. James was accompanied by Charles Race of the Journal office, who checked the car out of the D. N. James Automobile Co.'s garage at 5:30 a. m. The two arrived at St. Louis city limits at 8:08 o'clock. Fifty miles of the trip was made over freshly graded roads, a fact which quite seriously impeded progress.

"The entire non-stop trip was made in high gear and without motor trouble. That the car was kept moving is shown by the total time made and the fact that one mile was covered in 43 seconds. The total consumption of gasoline was 4 3/4 gallons for the 118 miles, making an average of 24.88 miles to the gallon of gasoline. The average speed per hour was 44.80 miles.

"The Essex car had previously been driven 6,000 miles and was equipped with Mason cord tires which had already seen 6,000 miles of service."

CHIROPRACTIC UNDER FIRE

Those who accepted disease and suffering as a natural part of life's experience, laughed and scoffed when Chiropractic first launched the idea that ill health was unnatural and the direct result of spinal pressure on the nerves, which shut off the life forces of the body. And they ridiculed the idea that by simple Chiropractic spinal adjustments, without drugs or knife, this pressure could be relieved, the cause of disease corrected and normal conditions, health restored.

But in the face of it all, Chiropractic has advanced because it has proved it is right. Thousands who formerly suffered are now enjoying health through the aid of

HOME MADE RECIPE. CATARRH AND COLDS**Nonexpensive—Cut This Out.**

Thousands are making this beneficial remedy at home and any one who has catarrh or a cold can do the same.

Ask your druggist for three quarters of an ounce of Mentholized Arcine and pour it into a pint bottle, then fill the bottle with water that has been boiled. Gargle the throat as directed and sniff or spray the liquid into the nostrils twice daily. It's a simple way to get rid of cold and catarrh and keeps the nasal passage and throat so clean and healthy that germs of flu or any other germs will have a hard time gaining a foothold.

**WAS NERVOUS

HEALTH BY BIO-FEREN**

"I feel I owe you people a word of gratitude for the benefit I have received in using your wonderful remedy—Bio-Feren Tablets, which have completely restored me to normal conditions," says Joseph E. Webb of Muncie, Indiana.

Bio-Feren is without doubt the grandest and quickest remedy for nervous, run down, weak, anemic men and women ever offered direct through the druggists and is not at all expensive.

Take two after each meal and one at bed time, and after seven days take one after each meal and one at bed time until the supply is exhausted.

Then if you feel that any claim made in this special notice is untrue—if you are not in better health—if you do not feel ambitious, more vigorous and keen minded, yes, twice as much as you did before, the druggist who sold you the tablets will gladly hand you back just what you paid for them.

All druggists in this city and vicinity have a supply on hand, or can easily get it for you. Seven a day for seven days—Wonderful results.

**MILLIONS COLLECTED
FROM OUTGOING ALIENS**

Income Tax Agents Kept Busy at Piers in New York Collecting From Outgoing Aliens and Those Sponsoring Incoming Dependents.

New York—Between nine and ten millions of dollars have been gathered from outgoing aliens who were too modest to declare the full amount of their earnings for income tax payments and many thousands more are being collected from delinquent aliens who boast of their ample incomes to immigration inspectors to convince those officials that they can easily care for incoming dependents, according to a statement made public here by Colonel Daniel L. Porter, supervising internal agent of the Federal Income Tax Collecting Service.

Forty-five agents have been kept busy at the pier and elsewhere in the city collecting the millions from outgoing aliens. A small squad in a bureau established close by the Courts of Special Inquiry at the Ellis Island Station, lend attentive ears to the boasts of the aliens.

For the months of February, March and April the reports show that more than \$30,000 was collected at Ellis Island from alien tax dodgers, while three times that amount was traced to other localities and the collectors there notified. The report for May are not yet filed, but the amount collected is said to have increased with the increasing flow of immigration.

"A resident alien," explained Colonel Porter, "goes to the immigration station to sponsor a relative or friend for admittance to this country, knowing the government's requirements that a responsible person must guarantee that the immigrant will not become a public charge. The resident alien goes prepared to state on oath that his income is ample to safeguard the public against such dependents. Whether or not this resident alien has paid his income tax becomes the immediate subject of interest for our agents. They call the delinquent to a conference and, after allowing such exemptions as he may be entitled to, levy tax on the remainder of his sworn statement of income."

"When the tax dodger is a resident of some city or town not in our district his sworn statement is forwarded to the local collectors, who make the collections. In other cases they are made here and the money sent to the collector of the district wherein the tax dodger resides. Most money so collected range in amounts of from \$15 to \$500 and represent taxes due the government on small business concerns and on wages."

**GIRL WISHED TO KISS
PRINCE OF WALES.**

Auckland, New Zealand—While enroute by train from Auckland to New Plymouth early in May the Prince of Wales stopped at a small town called Te Kuiti. Here a Maori (native) girl made a determined effort to kiss him. But the burly mayor of the town pushed the girl away. This was the second attempt by a Maori girl to kiss the Prince, the first incident of the kind having been a few weeks earlier at Rotorua.

CLAUDE BESTS PADGETT IN PITCHERS' BATTLE

Southpaw Holds Index to Five
Scattered Hits—Both Teams
Play Brilliantly in the Field—
Hamm and Kichler will Pitch
Today.

One of the best ball games
seen in Jacksonville in many
months was that played by the
Indees and the Pekin Rainbows at
South Park Saturday afternoon.

Both teams went at top speed
throughout the nine innings. There
was never more "pep" displayed
and the locals did hard in the
ninth, still fighting. The final
score was 1 to 0 in favor of Pe-
kin.

That does not tell half the
story of how the tide of battle
surged. Padgett and Claude, the
opposing hurlers, gave as pretty
an exhibition as has been seen in
some time. Both were right and
tight in the pinches.

Padgett yielded eight hits and
Claude five. However, one of the
Rainbow's hits was a two
base blow by Dittmer and follow-
ed a muffed fly. This allowed
White, the visitors' lead-off man
to score the lone tally of the
game.

Padgett struck out eight men
while Claude caused four to
whiff. Padgett walked one man
while Claude did not send a man
to first by that route.

The cause of victory perching
on the banner of Pekin was the
great support given Claude. Dur-
ing the afternoon the Indees
kept up a determined attack on
the star southpaw and seldom has
he had to work so hard for a vic-
tory.

The locals hit the ball squarely
on the nose. But it happened
that it was always right in some
fielder's hands. If this was not

true they went and got them.
White picked a line drive off of
the bat of Clark that was tagged
for the tall timber and Vedel
backed out in the oats field in
left and stole one from Wheeler
in the ninth. Petrie at third,
Brown at second and Bennett at
first also speared drives that
looked good for base hits.

The locals were not far behind
the visitors in fielding stunts.
Grady caught a good game while
Clark picked a drive from White's
bat off his shoe tops for the third
out in the second with all the
sacks jammed. Padgett also
fielded his position in great style
while Denny took a line drive
from Callahan's bat that was
headed for Sangamon county.

Both teams fought hard for an
advantage and waited for the
break that would bring victory.
In almost every inning men were
on bases but the pitchers tight-
ened up or were saved by a brilliant
fielding play.

Pekin got two men on in the
first but were unable to get one
across. In the second they got
three men on but Clark stopped
them by his catch off White.

Ruble got on in the first with
two down but died after stealing
second when Briggs went out on
an infield hit. Two men got on
in the second but Petrie stopped
a score when he caught Wheeler's
infield fly and tagged Grady on
the line.

Callahan doubled in the third
with two down and singles by
Claude and Vedel put two on in
the fourth but White whiffed.
Clay singled in the sixth with one
down and stole second but died
when Vedel fanned and Claude
hit to Padgett and was tossed out
at first.

In the seventh the visitors
made the only run of the game.
After Claude had gone out Ruble
to Wheeler, Ruble dropped
White's fly in short right after a
hard run. Brown fled to Chris-
topher but Dittmer came thru
with a double close to the right
field foul line and White scored.

The Indees never gave up try-
ing, tho they did not get a man
on the paths from the third until
the seventh. In that frame Briggs
singled with one down and stole
second. Claude put on steam and
struck out Clark and DeFrates. It
was one, two, three in the eighth
and ninth. In the ninth Dick
Wheeler hit a mighty clout into
left field but Vedel went back
and grabbed it. The score:

gett, 8; Claude, 4. Double play—
Petrie, unassisted. Stolen
bases—Brown, Clay, Denny, Ru-
ble, Briggs, Grady. Umpire—
Ely. Time—1:40.

Notes.
Kichler will work for Pekin
today while Hamm will be on the
mound for the Indees. Clark
will be behind the log for the In-
dees.

The Indees looked better yes-
terday than at any time this sea-
son. That infield and outfield
will hold its own with any in this
section.

Southpaw Claude is one of the
best pitchers we have seen here
for some time. He has what most
left handers lack, that is control.
In addition he can put something
on the ball and uses his head.
Callahan reminds us of the old
days "Cally" catches with noth-
ing but a mask and pad. We be-
lieve he could get on the job bare-
handed and make good. He also
busts the old apple.

Clark robbed White of a hit
yesterday and the Pekin center
fielder recirculated by killing
one for Clark.

It looked good to see Wheeler
on first and "Cap" Denny on
third. They still have plenty of
"pep" and kept things moving all
the time.

Grady and Padgett worked
well together. Grady caught an
excellent game and Padgett pitched
one of his best games. It was
pitching that would have won
nine times out of ten.

The game this afternoon will
be called at 3 o'clock and the
game Monday will be called at
2:30 o'clock.

It will be Claude and Padgett
again Monday and there no doubt
will be a record breaking crowd
out to see the battle. The locals
are going to try to send Claude
back with a defeat against him
on Monday.

TILDEN WINNER OF TENNIS CHAMPIONSHIP

WIMBLEDON, July 3.—Wil-
liam T. Tilden of Philadelphia,
now holds the British lawn tennis
championship having defeated
Gerald L. Patterson of Australia
in the challenge round today.

Tilden's victory was the cli-
max of the long series of games
against the world's greatest ex-
perts thru which he had come
during the past week. Thruout
his play has been consistent and
brilliant and today he took the
measure of the Australian by a
combination of brilliant plays and
clever strategy. He found his op-
ponent's weakest points and, af-
ter the first set, which Patterson
won directed his play against the
Australian's weaknesses, captur-
ing the next three sets and the
match.

A fine exhibition of tennis was
given in the doubles by Charles
S. Garland of Pittsburgh and R.
Norris Williams of Boston against
A. R. F. Kingstone and J. C.
Parke, the British pair. Here
also the Americans lost the
first set and thereafter took
three straight sets and the match.

OUR COUNTRY, ONLY ONE
By David E. Swales.

Long may thy banner wave
Above thy true and brave,
Beloved land!

Our fathers' home to thee,
That now art doubly free,
Unrolled from sea to sea,
Brothers we stand.

Dear land we love, how well,
Our weak words cannot tell
For thee our love;
We love thy woods and streams,
Thy fields where plenty teems,
Beyond our fondest dreams—
Gifts from above.

We love our northland hills,
Our rivulets and rills—
Our homes and farms—
Our rivers grandly free,
That flow in majesty
From mountains far to sea,
With all their charms.

Land of the granite hills
Land of industry's mills
And marts of trade—
New England, noble, free,
Thy sons, where'er they be
Turn loving hearts to thee,
As to sweet maid.

O, land of memory!
Southland we turn to thee
In brighter day;
The sun of peace and light
Upon thy hills is bright,
O, may our love unite,
The blue and gray.

Land of the prairie sea—
Land of the robust free—
Land of the west;
Land of the inland seas—
Land of the prairie breeze—
Land of the flowery leas—
Land of the bluest.

Our country, only one,
From morn to setting sun,
Land of the free—
O, land of many a tomb,
From land of ice and gloom,
To land of summer bloom,
For you—for me.

GREAT WHEAT PROSPECTS.
George Hall, the capable weather observer near Alexander, says the wheat in his vicinity is not yet quite ready to cut but he predicts a better crop than has been anticipated. He has on his farm a forty acre field that looked so bad early in the year it seemed almost best to plow it up. However, he decided to let it alone and it promises a good crop. Mr. Hall says chinch bugs are making their appearance and will probably seek the corn fields if possible.

Hupmobile

How fortunate it is for us that the men who founded this business, set out with the simple idea of trying to build the best car of its class in the world. That clear-cut determination has led them to adopt policies which are careful and conscientious, and manufacturing principles which are sound and substantial. The net result has been a most unusual and cordial relation between them and the public—based on the confidence which people have learned to place in the Hupmobile and the company which builds it.
